# About Pine World Coin (PWLC)

Pine World Coin is leveraging many years of successful experience of professionals in the various industry to facilitate a distributed technology platform that provides curated and quality-optimized networking systems for every professional across the world. The Pine World Coin platform will uniquely combine Artificial Intelligence (A.I.) and blockchain technology allowing for matching individual requirements with professional services, with Pine World Coin eliminating all of the points of friction that exist in today's professional networking ecosystems.

The Pine World Coin, used within the Pine World Coin platform, will power a real-time service to maximize consumers from thousands of international service providers, tokenized payments to international OTT apps like Netflix, Amazon, Sonylive etc. etc. that eliminate cross border foreign exchange arbitrage, reduced fraud risk, and the seamless integration of gaming platform providers in providing.

# Smart Tokens

Smart Tokens based on multiple Smartchain solutions will be the undisputed next generation of the World Wide Web. Why? Because this technology is going to touch all our lives' in the near future, individually and business wise. Think about it, all currencies at the moment are backed by Governments. But are there any currency modules which are truly decentralized and global? Or at least has the potential to replace the existing physical currencies? Yes, there is. And it's called smart tokens or in a layman's term "Crypto Currency".

## Binance Smart Chain

At the moment BINANCE leads the chart when it comes to trading volume. It is the No.1 Digital Currency Trading Platform. BINANCE also have their own coin which is doing extremely well with an upward trend. BINANCE Exchange is also playing its fatherly role by adding millions and helping the crypto industry find global awareness. In recent news, BINANCE chain is bridging DEFI and CEFI with a 100-million-dollar support fund. Hence the BINANCE exchange is becoming more and more popular. Moreover, since all digital currency offer limited quantities to increase demand. Saturation of popular digital smart coins and tokens are happening much sooner than anticipated. This saturation is inspiring gigantic upward trends in all cryptographic exchanges. The addition of big named crypto clients such as Elon musk on the bandwagon it is only making it easier for masses to understand and learn how quick adaption to smart tokens will affect everyone in more ways than none.

# Is Pine World Coin Future Asset?

With further capitalization of the BINANCE Smart-chain, the need for smart contracts and smart tokens has risen for multiple service sectors. The Pine World Coin is being launched to align itself with the growing market of users of the Digital Coins and Tokens. Pine World Coin will target the gaming, UI and utility industry to make smart contracts and smart agreements running on multiple Smartchain ecosystems.

So, what are smart tokens? Smart tokens are based on the revolutionary Smartchain that enable to settle contracts and send payments over the internet with fixed rules and without a third party. Pine World Coin Smartchain based Smart tokens are issued to users to help facilitate transactions against services & products.

The Pine World Coin will be built on the BINANCE Smart-chain. Like the BINANCE and Bitcoin, Pine World Coin also aims to facilitate services between people and establishments without the presence of any intermediary, and in an extremely cost-effective manner.

If you still don't understand what smart tokens are? Don't worry, no one understood the internet when it was launched in the 90s. A lot of innovation around the internet happened before people actually started to understand what it was. Look where we are now, the same type of innovation is happening again with the crypto currencies.

# Pine World Coin Mission

## Goals for the Pine World Coin :

- To saturate our 50 million limited supply to increase demand.
- Extend global reach.
- Connect with a diverse range of channel partners.
- Steady return of investment (ROI) to stakeholders.
- Share prosperity and help flourish the Crypto Community.
- Will share profit earned by OTT app.
- International payment system and gateways.

## Pine World Coin is “Safe”

By buying Pine World Coin, you not only get a smart digital currency but you have also unintentionally or intentionally become a part of something great. That something great is the new economic boom of the digital smart token network on the Smartchain ecosystem.

Unlike the most physical currencies, the digital-currency is issued according to fixed rules. The real idea behind Pine World Coin was to create a digital currency with a value that couldn't be monopolized or controlled by any central authority. The sooner this rationalization hits the public, the quicker they will draw to use the Pine World Coin against various networks of service. The true value and beneficiary of using our smart token is to be able to reap direct benefit without having to share with any intermediaries

# Why Pine World Coin?

Because like everything else, even assets are becoming smarter. To give you an example, think of assets in the form of art, music, intellectual property, loyalty points, carbon credits, coupons etc. Most of these are already digitalized but with a centralized mechanism and without smartchain. Imagine if all of the above functioned as digital assets but in decentralized smartchain platform. Similarly, when we look into the future of smart devices, global data states:

“The number of smart devices will exceed the number of human beings in the very near future. Perhaps as early as 4 or 5 years. The creation of a digital currency network is inevitable.”

The real reason why Pine World Coin will sell like hot cakes is simply because everyone wants to save money. Smart tokens make high transaction fees a thing of the past.

Another example of which can be understandable relate to is, what name comes to mind when you think of smart phones. Apple, right? Apple was not the company that invented smart phones. In-fact, smart phones were pretty much into play 10 years before the launch of the first Apple phone. Compaq, the Palm Pilot and even Nokia toyed with the idea of smart devices much earlier than anyone else.

In today's age almost all now carry an iPhone or smart device in our pocket, and with pride. We depend upon these devices. Such is the power of the Smart device and such will be the power of the smart currencies capitalizing on these smart devices.

# Pine World Coin Economy

We have worked on excellent staking reward system based on Binance Smart Chain referral program. With the historical future of crypto currencies, the price of Pine World Coin likely rise overtime.

This will be the next solid passive income strain. Returns are high as they have been, as they are directly linked to the BEP20 smart chain.

What so ever revenue we will get from OTT app, Gaming Portal , NFT Marketplace and other sources, we will distribute 20% of the revenue among whitelist candidates and top 30 account holders in the form of Goodrich tokens.

# Pine World Coin Value

So, what really makes the Pine World Coin attractive to its users? Well firstly, being Smartchain, it is not linked to any central authority, thus driving cost effectiveness.

Secondly, it's on the successful BINANCE Smartchain, effectively adding value to millions of BINANCE exchange users.

Thirdly, the Pine World Coin is a digitally signed stamped Smart Token. It is following a multi prong launch broadcast strategy to be put out in the world with lots of noise.

## Reasons To Own Pine World Coin

- You just invested in something great.
- You get digital currency in return.
- You will save money on transaction fees.
- Our smart tokens will be redeemable with incentives.
- You get the first movers' advantage and you are way ahead of the crowd.
- Last but not the least, you will become a part of the digital economic boom.

## Paradigm Shift

Contemplate this. You currently keep your cash in the bank and your gold is in the locker. So the more of either that you have, the more inconvenient it becomes to manage. And how long will this traditional hold up last.

On the other hand, smart tokens or crypto currencies are with you always. They are always in your smart device. It's safe to say that your smart token is always at your fingertips. It will become a utility of value. Unquestionably, the business world in the future is going to run on smart contracts. Peer to peer consensus mechanism will be the go-to for buying and selling. Crypto currency based smart tokens will be used in the future for cash. Learn to earn profits and make the smart switch.

## **Pine World Coin Global Economy Factors**

Pine World Coin are largely based on the existing macro & micro economic factors. The crazy undersupply and management of physical currency is causing deflation. The existing global finance and trade of physical currency is likely to diminish in the future. Therefore, as a consequential factor our Pine World Coin, carrying the global macro focus, is likely to flourish and bloom.

Pine World Coin will be the consequential factors of lack of future currency in the current supply and demand parameters. Consider this, Smart tokens are built on to pre-serve the future of the global macro focus. Previously, we could only imagine a world with global decentralized digital currency.

But the beginning of 2021 and the launch of new smart tokens such as Dogecoin has created new realities. News is spreading like wild fire. The rumor mills are at work incessantly. We like to live in the comfort zone. What could be more comforting than holding all your financial value with you, all the time, right where it belongs?

# Pine World Coin Bounty Campaign

We have allocated Pine World Coin for various bounty programs and campaigns. We will encourage the community with various tasks. These tasks can be marketing related etc. There are various crypto communities online. We aim to conduct the Pine World Coin Bounty Campaign amongst a variety of communities. These communities will announce.

Our white papers, They will write blogs on our smart tokens. The completion of these public tasks will see you winning rewards in the form of Pine World Coin. The Pine World Coin Bounty rewards are directly relative to your work done. For instance, if you wrote a blog on our smart token. The higher the number of views, the higher amount of Pine World Coin. You can create an announcement thread.

# Pine World Coin Revolution

Data is readily available. We will write contracts on this data on the Smartchain using the Smartchain mechanism. The outcome of the smart contracts will be established. And they will be secured as these smart contracts are built on Smartchain. Mixing these smart contracts with the real world may be a challenge at the moment. However, the earlier first mover advantage will go to those with a more futuristic vision considering the historical cryptographic data available to all of us at the moment. The new cryptographic ecosystem is being built around global markets and will continue to expand exponentially considering its future value. A decentralized most highly audited smart service system will be the attraction of many, including institutions and business owners.

Our smart token aims at the diverse new cryptographic ecosystem. There is already a huge cryptographic market. Mauritius as an example, they aim to become 100% run on block chain. Mauritius as you all know has one major industry, and that is the gaming UI utility industry

So where are we today and how far have we come. This is still very much the beginning. You can buy a Nissan Daytona in a US with a dogecoin. Won't be long when you will be able to buy Tesla cars with bitcoin. Dealerships in USA are already selling cars using bitcoin. Welcome to the future. The auto industry is transforming, and other industries will follow. There are serious gains to look forward to in our industry.

It's the right time to become a part of the financial revolution of the future. Although the cryptographic industry is much built-in volatility. However, the Pine World Coin will target steady growth. We are setting growth protocols and parameters based on the existential data with futuristic calculations.

# Pine World Coin Technical Team

Although cryptographic trends are mostly hyperbolic. All our computation assumptions on our smart tokens have been technically qualified by the application of long term historical cryptographic data measurements. Our technical team is highly qualified and extremely motivated.

They are inspired by historical trends that have brought the crypto currency to where it is now. Safe to mention that we have been studying this market and its trends for many years. We are now sure of the Smartchain opportunities and hence we are deploying our smart tokens to offer solutions to any and all complex scenarios. Our technical team has already invested 1000s of technical hours to assure we will achieve all technically measured assumptions.

# Pine World Coin Roadmap (Future Prospect)

# Pine World Coin Distribution

**Token Name : Pine World Coin**

**Ticker Name : PWLC**

**Blockchain : Binance Smart Chain**

**Standard : BEP20**

**Total Value : Dynamic**

**Total Supply : 50000000**

**Smart Contract Address :**

**0x91c1f07b7815d68c176321ead61d7bfae211d392**

# Pine World Coin Supply/Demand Economics

- What does the Law of demand and supply state: It states, “High demand and low supply for increased rate?”
- With this formula the Pine World Coin supply is limited to 50 million.
- Today you may invest less than 1 USD to buy our smart token and it may seem of low value to you.
- To invest in a targeted price rise of 170% can make your 100 USD investment quite worthy.
- In fact, you will be wishing you would have bought more of the Pine World Coin.
- But let's not get greedy. We want you as our long-term partners. You will grow with us, and so will your investments.
- We are on the BINANCE ecosystem. BINANCE has positioned its exchange for users extremely

## Payment System/Gateway

Our merchant strategy and planning will be launched in fourth quarter of 2022 after launch. Our tokens will be compatible with mostly all major gateways and smart wallets The Pine World Coin can be kept on any smart-chain wallets. Users can easily add our smart tokens to their existing smart-chain wallets.

# Pine World Coin Network

Through Pine World Coin, our network of professionals is expected to be the largest in the world. The brand provides a premium offering, ranging from editorial content disseminated through mobile, social media, online, and print platforms to a highly curated professional discovery platform.

## Pine World Coin Community

We understand the importance of social components in gaming, so there are quite a few major updates in the works. Over the next year, the development team will roll out a revamped account creation system, a new chat system, friends list, gift exchange, and more. Our goal is to foster a sense of community where users can come together to share ideas about gaming, crypto, or whatever else they want to discuss.
